

Discount Plan Purpose

The purpose of the Dental Discount Plan is to help our patients avoid paying more than they need to whether they have insurance or not. Many patients pay monthly premiums, copays, and coinsurance payments that exceed the benefits they receive. Most insurance companies limit your benefits to an annual maximum of \$1000 or less. They usually have stipulations such as long waiting periods for benefits, missing tooth clauses, and denials in coverage for various other reasons. Because of this we at Bishop Family Dental have decided to provide an alternative.

We are willing to give huge discounts off of our fees to those who will commit to regular 6 month cleanings and exams. The price of this membership plan is less than the cost of two checkups per year. On a yearly plan an individual will save a minimum of \$599.30 and a family of 4 will save a minimum of \$2123 their first year. This does not include the unlimited savings on any treatment needed.

If additional family members are added during the term of the plan they will have a start date retroactively to the initial start date of the plan
